Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the

day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

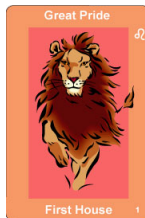

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Great Pride

Ascendant in Leo

A sunny outlook often brings on a sunny day, and that's a key to your coming year. Your ability to put a positive, even playful spin on all your operations allows you to gain ground and take territory everywhere you go. If you act like you own it, but are ready to share it, it's yours. The creative process is what drives your situation, with your initial input and then the rest of the world joining in and playing ball. It's all about leading with your heart and growing it a couple of sizes in the process. There's plenty of room when you are the first to provide it.

Self-Conservation Arises

Sun Trine Ascendant

You can't put on a show without believing in yourself, and this year you're your own best cheering section, as the front you're putting on suits your style and you're going to show it. Relax and let creativity and the stage itself take hold of your dance, and the individual steps will take care of themselves.

Actions Arise

Mars Conjunct Ascendant

Strength is yours this year, and leading with action will be your inclination and the source of your success. That will put you into leadership positions, but it can also bring you head-to-head with others with a similar inclination, so watch out for collisions. Look before you leap, but go ahead and do it just the same.

The Foundation for Your Year (continuation)

Physical Examination Arises

Saturn Sextile Ascendant

There's an inclination to put a limit to your socialization this year, favoring the few who really mean something to you over the many who might like to crowd into your life. That may give you a certain air of coolness, but your real friends won't hold it against you because it won't be aimed in their direction.

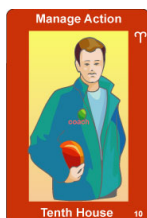

Conserving Insights Arise

Uranus Trine Ascendant

You're up for creative surprises all year, whether it's in the way you play or the new ideas you uncover and embrace easily. Nothing is too far-out if it has a reasonable side, and you're likely to be the one to find it. Learning and the wonder of discovery go hand in hand to make an ever more interesting personal world.

The Midheaven

Your Reputation, Career, Life Path

Manage Action

Midheaven in Aries

The word is out about you this year a lot more quickly than you might think, but it may not be very accurate when hot off the press. Be prepared to deflect premature rumors while accepting unexpected praise only halfway through the game. In the end, it's the end that counts, however, so don't forget it.

Manage Practical Ideas

Mercury Conjunct Midheaven

Pen your own praises all the way to the top, as what you'll be saying and thinking is going to get a lot of press, perhaps just by happenstance. It's a time to articulate your goals and accomplishments, putting your act down on paper and publishing it abroad to see who salutes. You'll be surprised who's watching.

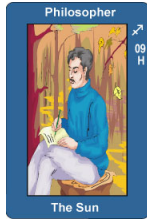

Manage Practical Values

Venus Conjunct Midheaven

This is a year to take advantage of all the praise coming your way and generate some more buzz in the process. They're saying nice things about you, but no harm in compounding the phenomenon with a little encouragement of your own. Getting out and about is more fun when you're enjoying your efforts, and they're appreciated.

The Sun

Your Inner Personality and Style

Philosopher

Sun in 9th House

Size is not only measure physically but by the breadth of your concept. Think big, and you're big. That's the ticket this year, as you naturally stretch your boundaries and the sky is the limit in ways that might not have occurred to you before. That could fearlessly lead you to foreign places or just wrap yourself around possibilities that are out of the box because they're too big for one to contain. The key to the year lies not so much in any one escapade, but in the inner adventurer that easily leaps from one experience to the next, because the call just cannot be denied.

Objective View

Moon Square Sun

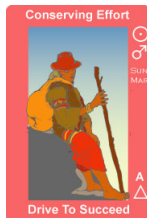

Inner conflicts can slow you down as you're not always sure your innate reactions fit your urge to assert your independence, thus throwing off your timing a bit. Second-guessing yourself can put a kink in your flow, thus slowing the current of life until you resolve how you feel about your position.

Teaching Ideas

Sun Conjunct Mercury

Your plans and designs this year are closely tied up with your ego, which can serve you well personally but may also have you too close to the subject to be objective about what you're preparing. A little advice from outside wouldn't hurt before you make it all your own exclusive dog and pony show.

Impersonal Effort

Sun Trine Mars

You're in for a steady ride as far as your fuel supply goes this year, with enough energy to burn to get the job done but without wasting any, either. When it's time to put your shoulder to the wheel, you'll know it and do it without a problem, and as with all exercise, you'll get stronger the more you perform.

Authority Experience

Sun Opposite Saturn

Attending to sometimes burdensome chores brought upon you by others may be an interference this year that will intermittently slow you down. It's not something you can ignore, so get done with it when it crops up so you can move on. If you pawn it off on someone else, it will just pop up again like a bad penny.

Original Ideas

Sun Conjunct Uranus

This is a crazy period for you, as the unexpected pops up not just from the surroundings but from inside yourself, and some days you may wonder exactly who lives inside that body you see in the mirror. Surprise is good if you're ready for change, so it's really about seizing the day now, as each one is so different, and self-discovery is the name of the game.

The Foundation for Your Year (continuation)

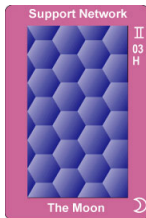

Public Change

Sun Square Pluto

If you feel you're being buffeted about by fate this year, you're on the mark. There are a lot of things you personally just can't do much about, and they seem to present themselves as if you could, which can lure you into fights you can't win. The courage and intelligence to just walk away is the wisdom of the hour, so use it.

The Moon

Your Feelings, Reactions, Emotions

Support Network

Moon in Gemini

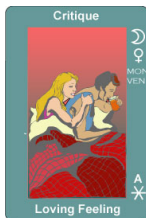

This year brings an inner ability to change how you feel and be sensitive to the emotional winds of change in others, as well. You'll be especially able to put your reactions into words instead of firing off without thinking or taking unintended slight sullenly to heart without comment. If you can say it, you can change it, and that goes right down to the most critical matters of the heart. Some may not agree, especially those who would hide their feelings to begin with, and you yourself may find it unusual to be so seemingly glib, but it's a learning experience to be treasured, especially when later the right words may be hard to come by.

Community Support

Moon in 11th House

Whether you're pushing on the way up or relaxing at the height of your career, your closest company is what defines the way your world develops. This year you are particularly sensitive to those near and dear, your elected personal elite, and who you'd like either to become or remain among them. Dreams don't come true until they're imagined, and the road to their fulfillment is almost always determined by the people you choose and who choose you. Your ability to create and sell yourself here, as well as protect what you are already working on, is particularly highlighted this year.

Critique

Moon Sextile Venus

You really don't worry much about what you want this year, as you have an innate feeling of what you need and can reasonably get, so the subject really doesn't arise much into consciousness. You're more concerned with what you're going to do with what you receive, with clearly good and easy intentions in the process.

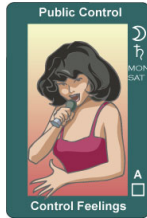

Public Success

Moon Square Jupiter

Overstating or understating your feelings this year leads to continual readjustment of them, which can be seen as irregularity or inconsistency. The first arrow overshoots the mark, followed by a wild shot, eventually honing in on the bull's-eye, but you'll need to give yourself space to work it out.

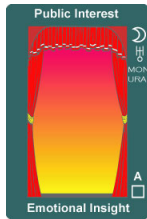

The Foundation for Your Year (continuation)

Public Control

Moon Square Saturn

Self-criticism can be a crippler this year, as when you withhold your inner response at the wrong moment chances for success pass you by. It's not so much lack of confidence but preventing yourself from expressing the confidence you have. Don't be your worst critic, leave that to others, sufficient unto the day.

Public Interest

Moon Square Uranus

Fits and starts mark your maneuvers this year, as you over and under react to abruptly changing situations until you fine-tune your trajectory. That can be a little unsettling to yourself and those around you, so apologize if you must while moving on nonetheless. The appearance of inconsistency fades over time.

Conserving

Moon Trine Neptune

Intuitive reactions will get you everywhere this year, and rolling with a hunch will lead to another even better one, and so on. Don't try to explain it too much or you'll lose the beat, but when you're in tune, you'll know it. Play it like you feel it and let the rest happen by itself.

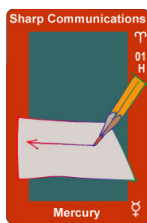

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

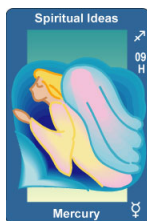

Your Mind and Intellect, Thoughts and Plans, Communication

Sharp Communications

Mercury in Aries

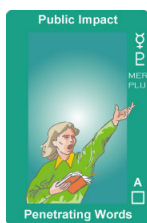

Your mind is in high gear this year, always racing to catch the latest idea, but sometimes not waiting to consider all the implications before moving on. Short sprints are better than marathons when organizing, quick solutions are easier than long-term overhauls which may be delegated to more patient types.

Spiritual Ideas

Mercury in 9th House

Putting those big-picture ideas down on paper so they make sense is a theme for the year, so put your head to it. Now's the time to step down that hypothesis to a theory and then into a real plan that makes sense. Just connect the dots, and there it suddenly all appears before you.

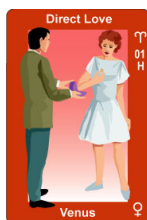

Public Impact

Mercury Square Pluto

Repeating yourself doesn't make you any more convincing, and this year may teach you something about that. The temptation to hammer in a point that doesn't bear reiteration is asking you to waste precious brain power and try your own and everybody else's patience. If it doesn't get across the first time, maybe it shouldn't.

Venus

Your Needs, Wants, Desires

Direct Love

Venus in Aries

Strong desire and instant gratification are major motives for the year, and what you want now you want very much, immediately. But right afterwards, you may not even remember you did, as fleeting desires and pleasures pass, intensely joyful and then history. That's good to remember before you pay for something you may not keep.

Personally Speaking (continuation)

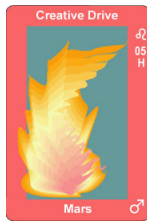

Practical Love

Venus in 10th House

Much applause from all around you is ahead, especially if you make a point of asking for it. Don't hide your light under a bushel, let it sparkle for all to see and everyone is going to want a piece of your action. If you wait, it could be too late, so simply make yourself available to your public.

Mars

Your Energy, Life Force, Excitement

Creative Drive

Mars in Leo

Enthusiasm and generosity ensoul your energies, and the more you let yourself free to enact your creative side, the more will get done. When it seems like play, that's when you're doing your best work, so don't let yourself get boxed in or sat upon to repeat old efforts. Find your muse, then let her rip.

Urge to Accept

Mars in 12th House

Fools rush in, but don't be one of them this year, as the angels aren't giving out guarantees. Rash actions backfire, but working quietly behind the scenes can get you what you want if you take care not to flaunt it. Look twice before you drive each nail – it hurts so much when you miss.

Critical

Mars Sextile Saturn

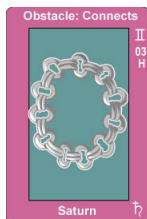

Gradual efforts get you everywhere this year, as you don't have to do heavy lifting to raise a great achievement. Like bricks, you pick up one at a time and pretty soon you've got a solid building you couldn't possibly erect all at once. One careful step at a time and watch it rise like a cathedral...

Preserve Freedom

Mars Trine Uranus

When you know exactly what you're doing, with fresh, clear insight guiding each step, work goes easy and the waves part before you. That's a theme for the year as clarity of vision makes your efforts hit the mark the first time, each time, and gets you into a rhythm of achievement that builds one effort upon the last.

Obstacle: Connects

Saturn in 3rd House

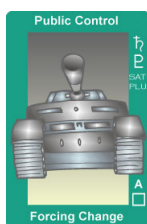

Be a person of few words this year and your brain will thank you for it. When in doubt, cut down the ambient noise level, filter out the extra talk, engage your life spam filter. The less you say the better, and the better you choose your words, the less you'll have to say. 'Nuff said.

Inventive Power

Saturn Opposite Uranus

This rare year provides you a background when new advances in theoretical science occur which take a long time proving, thanks to an often intransigent scientific establishment. The foundations for another wave of the future are being laid at this very time, no small thing. Find them, and get on board.

Public Control

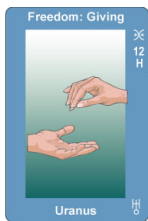

Saturn Square Pluto

This year marks a somewhat troubled time for society at large, during which political and economic struggles arise and engage in conflicts that don't actually seem to get anywhere but take up a lot of news time. With that in mind, you may find you can make more headway in smaller affairs and short-term commitments.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus **Discovery, Revelations, New Ground**

Freedom: Giving

Uranus in Pisces

Spiritual discovery awaits, which will be mixed with sudden revelations of deceit and illusion both on the inside and outside for the populus at large. New dreams appear and then sometimes vanish, sheared away by hard realities resulting from inner and political denial. In the end, it's a step closer to sought-after ideals, but with some considerable disillusionment along the way.

Freedom: Spiritual

Uranus in 9th House

You'll think you have a handle on the big picture this year right up to the point that it splits apart and reveals a whole different dimension that requires scrambling to embrace. Don't drop everything the first time, however, as it may happen sporadically and will settle out as you get used to the new view.

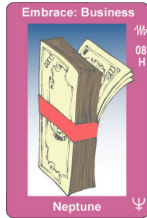

Neptune **Dreams, Hopes, and Fantasies**

Embrace: Community

Neptune in Aquarius

This period sees the idealization of the common folk, even to the level of thinking they're essentially a lot better off than they are, even superior, and thus subject to all sorts of scams. The blessing is the discoveries involved in recovery from that. Epidemics are a hallmark of this time, so an extra eye on personal health hazards is in order.

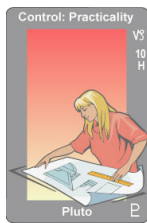

Embrace: Business

Neptune in 8th House

Mystery for its own sake has a strong allure this year, as nothing fuels fantasies like not knowing what's out there, and knowing that you don't. Don't run up a big charge trying to find out, since by definition you cannot, but it's worth some small change for the thrill. Exploring the unknown is by nature done in the dark.

Pluto

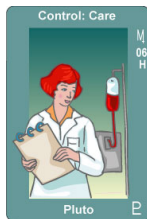

Necessity and Fate, Power, What Must Be

Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

Control: Care

Pluto in 6th House

The urge to trample out the vintage where the seeds of annoyance are stored is great this year, but sweeping away the trammels of everyday responsibilities may get you only so far. Revolutionize your schedule, and ever your reason for having one, but don't do away with it altogether. Something must abide to renew.

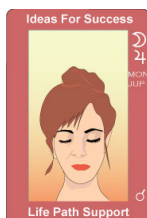

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Jupiter

Ambitions, Goals, Possibilities

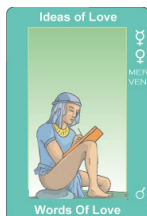

Ideas for Success

Moon Conjunct Jupiter

The inclination to give big, positive feedback will be with you all year long, as you react from generosity and an upbeat take on the situation first, question the downside second. This will mean you're the first to jump on new opportunities as you instantly recognize them, don't hesitate to move.

Venus

Your Needs, Wants, Desires

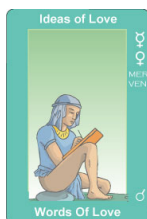

Ideas of Love

Mercury Conjunct Venus

Your mind directly engages and analyzes your desires this year, so you take the time to make it clear exactly what you want. You've got a Christmas list going all year long, which actually makes you much easier to please and more likely to get what (or who) you're after. Ask and you shall receive, but you've got to know what to ask for and how to put forward the request.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

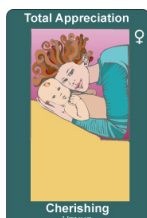

Ideas of Love

Venus Conjunct Mercury

Clever and pleasing turns of phrase are likely to be your signature this year, as what you have to say is what everyone wants to hear – not even because of the content, but because you say it so well. That's more than just surface beauty, as it comes from an inner understanding of form and balance you're currently tapping.

Venus

Your Needs, Wants, Desires

Accent on Values

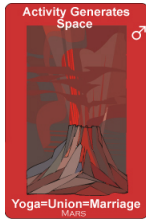

Venus Conjunct Venus

You take another step in understanding and living out your own desires this year, as if re-familiarizing yourself with what you want and your style of going about getting it. That means reformulating and refining goals to build on what's already there and bring a greater level of consistency and insistence that brings success that's uniquely you.

Featured Natal Positions (continuation)

Mars

Your Energy, Life Force, Excitement

Accent on Action

Mars Conjunct Mars

This year is a work-cycle peak, when new projects, new positions, new energies come into play and you find yourself gung-ho to get going with what's just made itself available for action. That can mean more money and more effort expended to get it, but you'll have enough to spare, at least at the beginning, fueled by enthusiasm for the new.

Sun

Your Inner Personality and Style

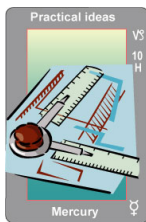

Original Ideas

Uranus Conjunct Sun

A year of sharp, marked internal changes is to be expected, affecting your basic inner approach to the world and at times causing moments of sudden stress that release as you make rapid adjustments for them. Your growth success is directly related to your flexibility and talent for quick recovery.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Manage Practical Ideas

Midheaven Conjunct Mercury

Your ideas are out in the public eye this year, which is much to be desired, but be prepared to articulate and defend them, because rumor is not always truthful. Similarly, thoughts you want kept private need extra protection or copyright before they make the rounds, or you might find yourself bereft of proper credit.

Venus

Your Needs, Wants, Desires

Manage Practical Values

Midheaven Conjunct Venus

If you have any particular or special needs, people will hear about them this year, which may require some editing on your part. It's good to have your desires out there so they get attention, but it's not helpful to seem too needy, so you need to garnish them with a lot of charm, plenty of honey to bait your trap.

Mars

Your Energy, Life Force, Excitement

Actions Arise

Ascendant Conjunct Mars

Your inclination to take action first and perhaps think about it later is strong, and it shows. You've got a bit of an itch to get into the fray, which can make for a year of great accomplishment as long as you avoid false starts. There's a feeling of "it's finally my turn to go" which it is, so play well.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

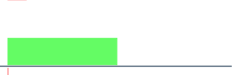

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Mar 22, 2010 to Mar 22, 2011

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

Conclusion

Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year
